Play-up Policy:

We encourage all players to tryout for their true age group first and then if interested tryout for the older team. The Club recognizes that some players may be ready to be considered for the next age level within the Club's competitive team structure.

Players are allowed to tryout for their own and older age groups. They can be selected to play for the older age group. The Coaching Staff will collaborate and use the following criteria:

- Projected starter
- Play a majority of the game
- Player qualities
- Individual Development: Ability to play a specific position for their development
- Team impact

Players can also be selected to play up if all of their true age team(s) has full rosters. The BFC Technical Director will make the final determination on all players playing up on an older age group team.
