

Policy on Select Players on Recreational Teams in Thurston County Youth Soccer Association Leagues

TCYSA administers recreational leagues in spring, summer and fall. This policy clarification will apply, with effect from spring 2017, to all leagues administered by TCYSA.

A select player is defined as one rostered to a team during the playing year which played in a league for teams formed through a player selection process. This includes teams in clubs affiliated with TCYSA and in clubs not affiliated with TCYSA.

Spring and fall seasons: A player may not be rostered to a recreational team unless an exception to this rule is approved by the TCYSA Director of Competition. Requests will not be considered for any player who is simultaneously playing on a select team. Clubs (not individual coaches) are required to send requests for exceptions to competition@thurstoncountysoccer.com. The Director of Competition may not grant more than two exceptions for any team.

Summer season: No team, u8 through u18, may have more than three select players. These players do not need the pre-approval of the Director of Competition. More detailed information on select players in the summer league is contained in paragraph 16 of the Summer Soccer Guidance for Coaches and Referees.
